

SERVICES

There are different ways to use **ABGG's** expertise. We supply turnkey packages as well as design, fabrication, installation and repair services.

SYSTEM DESIGN

ABGG Technologies inc., work closely with his clients and consulting engineers to produce turnkey solutions for various industries. We develop system specifications and select appropriate equipment to be sure that the environmental requirements will be met. Our "system approach", along with our experience, expertise and technology partners, is your insurance that the system will do the job.

FABRICATION

ABGG Technologies inc. promotes the local fabrication, near the project site as far as possible. We supervise the fabrication process to be sure of the quality of the job done.

INSTALLATION AND CONSTRUCTION SERVICES

ABGG Technologies inc. uses experienced installers to perform turnkey projects at customer's location. From supervision to full turnkey services, our construction team can install new equipment or relocate your existing equipment. Our services include civil and structural work, utility connections, pneumatic, hydraulic and fuel piping, and all necessary wiring.

SERVICES, REPAIRS AND SPAREPARTS

ABGG' team of project managers and field engineering personnel work closely with maintenance personnel to help solve equipment problems. In addition, we can plan and complete modifications to improve performance. We respond quickly to your service and solution requirements. Our service department can save you headaches by making sure you have the spare parts you need, and advising you so you don't buy parts you don't need.

DUST AND GAS COLLECTION SYSTEMS

ABGG is able to design, supply and install enclosure and ducting to collect pollutants at the source in your process.

TRAINING

The **ABGG'** personnel performs training to your personnel in the operation of your pollution control equipment as well as regular maintenance procedures and troubleshooting guidelines.

RETROFITS / UPGRADES

Minimize downtime and/or reduce operating costs. We have many years of experience in media upgrades, fuel systems, control systems, valves and heat exchangers.

EMERGENCY ASSISTANCE

Our service staff is available **24-hours a day** should you have an emergency or need to speak with a service technician immediately.
